

Announcing the Sixth Annual...

S O U T H E A S T B I O • P L A N C O M P E T I T I O N

Southeast BIO (SEBIO) is excited to kick off its 6th Annual regional BIO/Plan Competition to help foster the creation of next generation Southeastern life sciences companies and corporate partnering opportunities.

Working closely with tech transfer offices in the region, the Competition pulls forward opportunities from our region's universities, research centers, and existing entrepreneurs.

Here's how it works...

Entrepreneurs, inventors, or tech transfer officers complete an application outlining the concept and the opportunity.

A selection committee chooses the best ideas and pairs each with a team of mentors to further develop the concept and surround it with a first-class development plan.

The plans are submitted to a panel of experts and a small group of finalists are selected. A winner will be chosen from amongst these and announced at the 2012 SEBIO Investor Forum (October 31 – November 1, 2012, The Breakers Resort, Palm Beach, FL).

Bonus: the four finalists of the BIO/Plan Competition will be awarded private one-on-one meetings with qualified investors from the Southeast (travel support included).

If you are interested in applying, please visit <http://sebio.org/southeast-bioplan-competition/>. The application deadline is April 13, 2012.
